This Policy provides the framework and circumstances under which we may compensate Retail Clients who have incurred a negative balance on their Accounts.

When trading financial products on margin, it is possible to reach an account deficit state, i.e. a situation when the account's balance is negative.

If a Client has incurred a negative balance and is seeking compensation, the client must inform the Company's customer services by email, no later than 2 business days after incurring the negative balance. The Company will evaluate the inquiry and at its discretion may credit the relevant accounts to fully or partially compensate the negative balances. If the Client has more than one account, the balances will be netted.

The amount to be credited is determined by netting all positive balances with negative balances incurred over 2 business days before the receipt of the inquiry. At its discretion, the Company will credit the Client Accounts in order to compensate the netted negative balances up to the maximum credit value of EUR 50,000 or equivalent in other account currencies.
